

SOURCING & MANAGING HIGHLY TRAINED CANDIDATES

How a Medacs Healthcare client saved £2.4 million annually through a Managed Service solution.

BACKGROUND

A University Health Board needed help to reduce temporary staffing costs and implement firmer procedures and control. There was also a requirement for detailed management reports to provide better visibility on workforce spend and a new Direct Engagement model.

OUR SOLUTION

As experts in Healthcare workforce solutions, Medacs Healthcare implemented a Managed Service solution for the client by deploying a dedicated on-site team to work alongside the Health Board to gain control of their locum spend and introduce stringent booking procedures. The client now benefits from better rate and demand management, an improved supply chain, direct engagement efficiencies and support with permanent recruitment.

£2.4m

Annual savings in
excess of £2.4 million.

“We trust Medacs Healthcare implicitly to efficiently oversee our temporary staffing operations, over the past few years they have reliably maintained fill and consistently delivered savings”
